# The Royal Purple Raspberry

One of the finest Purple Raspberries  
ever introduced

## THE ROYAL PURPLE RASPBERRY

This recently introduced raspberry has proved to have surpassed all other purple varieties as the standard of its class.

The Black varieties have always been more widely grown throughout the country, than any other kind of raspberry because of the firmness of the fruit for shipment.

As hardness of plant, flavor, firmness and yield of crop is the issue sought in any variety of berry—we have found it combined in the Royal Purple, which at once places it at the top over all purples.

It is a wonderfully vigorous plant grower of tall strong canes (often standing to seven or eight feet) which by the way are almost thornless—a most desirable feature. The new canes are pea green color, turning to mahogany brown when the wood has ripened.

When pruned the canes produce an abundance of laterals, which explains how it is possible for the immense crop of berries produced.

### An Unequaled Purple Variety

**Hardy  
Big Yields  
Vigorous Grower**

The berries resemble in size and shape the black varieties, the color when ripe is like the Columbian or any other purple variety, the berries of the Royal Purple never crumble—even though they may not be thoroughly ripe when picked.

The Royal Purple Raspberry was found in Indiana and tried out by a veteran Nurseryman, who claims that the original plant bore thirteen successive crops, never missing a season, though during some winters the mercury recorded 35 degrees below zero.

Those who have been fruiting Royal Purple for the past two seasons have found it to meet the claims made for it. It begins ripening berries about the same time as the Columbian but continues to bear berries for a much longer period.

Unlike all other purple raspberries is the fact that the berries are more inclined to be in clusters at the end of the laterals—though each berry is borne independent on a separate stem—in other words the laterals are thickly covered with fruit stems, each stem bearing a berry—these stems become more abundant as the end of the lateral is approached, filling out at the end in a cluster.

### PRICE FOR PLANTS — Fall 1916 - Spring 1917 — By Mail Postpaid

**Two-Year Branched and Transplants.** I can supply 500,000 in aggregate. As fine a lot as I ever raised. Prices only 50 per cent. advance of my quotations per 1000 for 1 year plants.

**Small Plants.** Known as "No. 2 or Lining out" sizes. I shall have a more or less quantity of this grade in all Blackberry and Red and Yellow Raspberry, which I will supply at 1/2 the above quotations for 1-year plants.

### STRAWBERRIES—Ever or Fall Bearing Strawberries.

**The Superb (Per).** The strongest growing plant. One of the best June croppers and a most persistent all season yielder of the largest, best colored and flavored berries. It does not seem probable that this variety will ever be improved upon. . \$1.00

**Progressive (Per).** Similar in type and color, both of foliage and berry, to the Senator Dunlap. A very heavy and persistent all season bearer of medium sized excellent flavored berries . . . . . \$1.00

**Productive (Imp).** This variety sets altogether too much fruit for the June crop for it to mature. A light colored berry good size, an everbearer but it has not proved as good a continuous bearer here as have those first named . . . . . \$1.00

**Just Bearing or Standard Strawberries.** Uncle Jim (Per), Wm. Pelt (Per), Sample (Imp), Bulach (Imp), Fendall (Imp), New Home (Per), Parson's Beauty (Per), Climax (Per), Gandy (Per), Marshall (Per), Early Ozark (Per) . . . . . \$1.00

Senator Dunlap (Per), Michel's Early (Per), Eckey (Per), Haverland (Imp), Brandywind (Per), Jessie (Per) . . . . . \$1.00

**Hathaway's Hundred Dollar (Per),** the greatest yielding, largest strawberry in cultivation. Highland (Imp), one of the best . . . . . \$1.00

**CURRENTS.**—Cherry, Fay's Prolific, Pres. Wilder, Red Cross and Loudon Marker [Red Varieties]; White Grape; Black Champion . . . . . \$1.00

1 year, No. 1 plants . . . . . \$1.25 5.50  
2 year, No. 1 plants . . . . . \$1.75 6.50  
Perfection, a new Red, 1 year, No. 1 plants . . . . . \$2.50 10.00  
2 year, No. 1 plants . . . . . \$3.75 13.50

### GOOSEBERRY PLANTS.

Downing, Industry, Smith's Improved, 1 year, No. 1 . . . . . \$2.00 7.50  
2 year, No. 1 . . . . . \$2.75 11.00  
Houghton, 2 year, No. 1 . . . . . \$1.75 6.50

**GRAPES—1 year, No. 1 Vines.** Each . . . . . \$1.00 3.50

Concord, black, the standard market sort . . . . . \$1.00 3.50  
Niagara, white, the standard market sort . . . . . \$1.50 5.50  
Campbell's Early, black . . . . . \$2.00 7.50  
Moore's Early, black; Worden, largest black . . . . . \$1.50 5.50  
Delaware, red; Catawba, red . . . . . \$1.50 5.50  
McPike, new black; Regal, new red . . . . . \$3.50 12.00

We can supply the leading varieties in 1 year and 2 year vines for the trade or commercial planter. WRITE FOR PRICES, naming the variety or varieties and an entity wanted, and we will quote by letter price and terms.

### ASPARAGUS.—Choice of Palmetto, Giant Argenenil, Conover's Colossal.

By Mail 15 50 By Express or Freight, F.O.B.—50 100 250 500 1000 5000  
1 Year Plants . . . . . \$3 75 \$50 .75 \$1.75 3.00 5.00 20.00  
2 Year Plants . . . . . \$50 1.00 \$75 1.00 \$2.00 3.50 6.00 25.00

### RHUBARB—Pieplant—By express or freight. Choice of Linneans or Early Scarlett . . . 15 for \$1.25; 100 for \$6.50

### THE EVERBLOOMING BUTTERFLY BUSH—Buddleia Variabilis Magnifica, by some called the Summer Lilac.

Large 2 year Field Grown Plants . . . . . 50c each, 3 for \$1.25, or \$4.00 per dozen  
1 Year, Pot-Rooted, young plants . . . . . Sent by mail for 20c each, or 6 for \$1.00

### HIBISCUS Mammoth Marvels—Hathaway's. Everblooming. One of the largest flowers known, most attractive. 1 Year Clumps, 3c each, or 3 for \$1.25. 2 Year Clumps, \$1.00 each 4 Year Clumps . . . . . \$3.00 each

We grow these two attractive, all-season-blooming, hardy, out-door plants about our yard and buildings in preference to shrubbery. If interested in something new, novel and attractive, try some of these plants. I can also supply fruits and ornamentals of every description. Inquiries answered by letter. Address and make all payments to
